

About Us

1Govern Engineering Consulting LLC is a small business that provides systems engineering consulting services to the federal government. We perform the due diligence to identify, evaluate, justify, and advance all major IT investments and mission critical programs within the agency. Our services assist agencies to plan, acquire, design, architect, and deliver the most secure solutions.

Differentiators

- 1Govern Engineering Consulting LLC will maintain an FCL commensurate with the highest level of classified access Top Secret or as required by the contract.
- Our proprietary process forecasts the potential costs associated with each IT solution and then our team provides guidance on how to minimize risks, and improve project delivery.
- Our team of key personnel all hold advanced degrees in the required fields necessary to be subject matter experts.
- The entire Team is fully vaccinated.

Awards for Key Personnel

- 2021 DOT Distinguished Service Award.
- 2010 DOT Directors Award for Distinguished support for Idea Hub.
- 2008 US Attorney General's Award for Excellence in Information Technology on 10/30/08.
- EOP Director's Outstanding and Distinguished Service Award, December 2001.
- EOP Appreciation Award for Distinguished Service during September 11, 2001.
